Projects

My Portfolio

- The **Personal Portfolio** project is a static website built using HTML and CSS.
- The purpose of this project is to showcase your skills, projects, and achievements in a visually appealing and professional manner.
- This portfolio can serve as an online resume and a platform to demonstrate your web development capabilities.

Developing a Cybersecurity Dashboard for Real Time Threat Visualization (GROUP PROJECT)

- Enable analysts to quickly identify anomalies and potential threats as they emerge, reducing the time to detect and respond to attacks.
- Graphs, charts, and heat maps display data in an easily digestible format, helping users quickly understand complex information and identify patterns.
- The model is trained using **Machine Learning** and the data is displayed using **Streamlit** and Visualization using **Plotly**.
